TDS700

Fits the way
you want it

Productive, flexible
wide format system

- The logical choice for your organization
- Ideal for both corporate and commercial environments
- A wide selection of software tools
- An easy-to-use system for current and future workflows

Fits the way
you want it

Océ TDS700

Productive, flexible wide format system

In today's technical environments a wide format system has to please everyone. Business people want value for money and peace of mind. That means a flexible, reliable system that saves time and money. Users want simplicity and reliability. In other words, an easy-to-use machine that fits current workflows.

The Océ TDS700 meets all these requirements. With a robust, configurable printer, the powerful Océ Power Logic® controller, a choice of two scanners and a wide range of software, it fits the way you work both now and in the future.

Productive, flexible wide format system

The logical choice for your organization

Océ TDS700 is the perfect fit no matter what your wide format requirements are:

- True print productivity independent of media size changes within the print job (4.7 E/min.; 9.1 D/min.)
- Concurrent printing and scanning
- Instant-on. No waiting around for the system to warm up
- 600 × 1200 dpi pico printing for sharper details and smooth grayscales
- A choice of two scanners (monochrome and color), a folder and different media size configurations
- Unmatched ease of use, iF Product Design Gold Award
- Océ Print Exec® Basic software offers web-based job submission
- Lowest energy consumption in its class
- Océ robust design, reliable by nature

Ideal for both corporate and commercial environments

The Océ TDS700 fits the way you want it whether wide format documents support your business or generate your income.

In CAD/Engineering environments:

- Up to six rolls and sheet feeders to give you all the media flexibility you need
- System can be installed close to users for quick and easy access because of the low noise, reduced ozone discharge, and negligible heat emission
- Fastest time from cold start to print in the industry
- Silent printing means productive employees

In Reprographic environments:

- High quality output through 600 × 1200 dpi pico printing
- Print over 10,000 sq. ft. without having to reload media
- Right the first time with Océ Image Logic® technology pushes your productivity to the edge
- System's ease of use makes it productive from the moment it's installed

A wide selection of software tools

Thanks to a full range of software, the Océ TDS700 has the flexibility to be configured into any environment and the power to optimize workflow.

Océ Account Center software

Océ Account Center software can help turn document services from costs into profits. It facilitates cost allocation and reimbursement for printing, copying, and scanning, and helps ensure all work is charged to the right user, department, or project. With all costs recovered, you can significantly increase return on investment.

Océ Repro Desk® software

Océ Repro Desk software is a print creation and distribution software platform that can boost productivity and output and increase profitability in a central repro environment. Its suite of applications are seamlessly integrated, connecting AutoCAD® designers' desktops to a reprographer's digital print room and creating a true, end-to-end digital workflow.

Océ Print Exec® software

Océ Print Exec software suite is a powerful tool that optimizes the entire technical document printing process, from job submission in a wide range of formats, through output and management of finished documents.

A simple system for workflows

- Print with Océ driver or Océ Print Exec® software suite
- Single copies or productive set copying with Océ Matrix Logic® technology
- Scan to archive with Océ Scan Logic® software
- Autozoom

Engineering Department prints with

- 1 Windows® printer driver
- 2 Adobe® PostScript® 3 printer driver
- 3 Web-enabled job submission

IT Department

- 4 Distributes new drivers via server
- 5 Remotely controls the printer settings

Archive Department

- 6 Copies large format drawings
- 7 Digitizes microfilm/analog drawings
- 8 Archives digital drawings

Print Facility

- 9 To serve all print, copy, and scan needs concurrently
- 10 Easy to use system

Océ TDS700 Productive, flexible wide format system

Owner/Executive ①

“I want a printer that keeps everyone happy”

IT administration ②

“I want a printer that fits our IT set-up”

Facilities ③

“I want a printer I can install and forget about”

Purchasing ④

“I want a printer that’s the best deal”

Fits the way you want it

Network administration

CAD

CRD

*“I want a printer
that’s predictable”*

The Océ TDS700 gives network administrators full control over the system’s operation from their workplace:

- Océ TDS700 Power Logic® controller remote provides full access to all system settings
- All administrator settings are password protected
- Advanced security settings prevent unwanted access
- A full range of software is available, from an entry level package to a fully loaded configuration

*“I want a printer that’s
ready when I need it”*

The Océ TDS700 makes life easy for CAD managers because it outputs documents fast and on time:

- When a job is ready for printing, the system reacts instantly—no waiting for system warm up
- Océ Advanced Queue Management gives users prints when they need them
- Easy-to-use templates mean copies and scans are right the first time—no time consuming troubleshooting
- Users can submit prints using certified printer drivers or with the web enabled Océ Print Exec® Basic software—ensuring quality, reliable output every time

*“I want a printer
that’s easy to use”*

With the Océ TDS700, central repro managers can offer a high level of service to internal customers:

- Schedule and reorganize jobs with Océ Advanced Queue Management—to receive priority print or copy jobs quickly
- Océ Image Logic® technology ensures right-first-time copying and scanning
- Different access levels are password protected—preventing errors
- Smart user interface guides people through the system
- User-specific settings can be saved for easy access later—streamlining printing and copying
- System can be expanded with up to six rolls, a sheet feeder and an inline folder providing a solution for you now and into the future
- Scanner is ready for future services like color scan to archive

Beyond the Ordinary

Printing for Professionals

Océ helps the people who make our world. Companies everywhere use Océ high-speed printing, technical documentation, and professional document systems to keep the wheels of business, industry and government turning. Océ also helps the world. Developing products and services that add value to the document processes of our customers, while minimizing environmental impact and protecting health and safety, has always been one of our core principles. From bank statements to utility bills, from blueprints to newspapers, from on-demand documents to wide-format display graphics, Océ helps our professional customers go “Beyond the Ordinary” in print and document management.
